

Case Study

AEROSAFE | Global Success Story

AeroSafe Global needed a scalable ERP solution to manage their highly specialized cold chain logistics, ensuring temperature-sensitive pharmaceuticals were delivered safely worldwide. Their existing manual tracking system was not sustainable at scale, risking operational inefficiencies, compliance gaps, and customer satisfaction.

At a glance

Challenges

- Scalability Issues
- Regulatory Compliance
- Lack of Real-Time Visibility
- Reverse Logistics Complexity

Benefits

- End-to-End Traceability
- Optimized Supply Chain
- Regulatory Confidence
- Faster Turnaround

Corning Data's Solution

To resolve these challenges, AeroSafe Global partnered with Corning Data, selecting IFS ERP as the foundation of their logistics operations.

How Corning Data Drove Success:

- Deep Discovery & Process Mapping – Conducted on-site white boarding sessions, fully understanding logistics workflows and business goals.
- Strategic ERP Roadmap – Designed a bespoke implementation plan that aligned IFS ERP with AeroSafe's unique logistics model.
- Seamless ERP Implementation – Managed end-to-end deployment, integrating real-time global shipment tracking and complex asset serialization into IFS ERP.
- Ongoing Support & Optimization – Continued post-launch refinements, ensuring long-term scalability and compliance.

About Corning Data

With over 40 years of ERP expertise, Corning Data helps organizations optimize operations, drive digital transformation, and unlock efficiency through tailored ERP solutions.

End-to End Shipment Visibility

100% of shipments and millions of serialized assets are now tracked in real-time through IFS ERP.

Faster Reverse Logistics

Reduced refurbishment turnaround time by 48 hours, accelerating package redeployment.

Regulatory Compliance & Audit Readiness

Fully automated tracking ensures compliance with strict pharmaceutical shipping regulations.

Optimized Inventory Management

Reduces waste and improves asset reuse cycles across AeroSafe's operations.

Impact
